

# Satchel Fryzel

## Student & Researcher

---

*I am an energetic and passionate student who is ecstatic to join the workforce and solve pressing issues from a side where I can efficiently enact practical and advantageous change.*

## Experience

---

Spring 2023

### **Founder** *USU Bicycle Benefits*

Spearheaded the development, implementation, and success of the USU Bicycle Benefits Program, a collaborative initiative involving multiple on-campus organizations, designed to incentivize sustainable transportation among Utah State University students and faculty. Through this experience, I was able to exhibit systems thinking through these organizations and my commitment to spreading sustainable practices.

Summer 2023

### **Partnerships Intern** *GEO Foundation for Sustainable Golf*

Through political advocacy, I worked to raise awareness about the importance of eco-conscious initiatives in golf, engaging with policymakers to drive positive change in the industry. Additionally, I played a pivotal role in fostering private and public partnerships, forging alliances that would further advance our mission to center golf as a key to combatting the environmental challenges we face across the globe.

Summer of 2022, 2023

### **Assistant Professional** *Tributary*

While at one of the most rapidly growing and attention-gathering clubs in the West, I was able to make my mark by providing impeccable service to high-profile clientele. In addition to this service, I helped plan and run the club's largest grossing events with total participation exceeding 500 individuals, all while overseeing the day-to-day golf operation.

2022 School Year

### **Research Assistant** *Utah State University*

Working under Utah's IORT (Institute of Outdoor Recreation and Tourism), I was responsible for digitizing geospatial data collected through various workshops aimed at supporting the development of the Utah Outdoor Recreation Strategic Plan. The data that I digitized and collected was presented in front of the Utah Senate in the summer of 2023.

## Education

---

*Utah State University* 2020-2024

### **BS in Envr. Studies**

*Emphases in Sustainable Systems & Applied Economics*

Notable coursework: *Environmental History in Policy, Globalization & International Development, Ecological Economics, Human Dimensions of NR Management, Regional Planning*
